

Hydrate Plus Wetting Agent Concentrate

SOIL IMPROVER

Total nitrogen (N)	0 %
Total phosphorus pentoxide (P ₂ O ₅)	0 %
Total potassium oxide (K ₂ O)	0 %

Offers soil penetrant qualities and has the ability to aid water-holding capacity and can therefore improve water movement through the root zone and also improve water distribution within the root zone. Agitate well before use. Store away from direct sunlight.

See back of pack for more details
